Indirect Services Summary

Indirect services are those project activities which are primarily dissemination oriented. In these activities the exact nature and number of people reached is difficult to assess.

Numbers reported by each project by quarter are displayed by the major means of providing these services.

National Summary of Participants

This report presents a summary of participation in all activities of NDEP projects. Participation is reported by type of service, program component, and with a national total. Indirect services are totalled separately since this data is less directly measurable that the other categories of participation.
